COMPANY BACKGROUND
COMPANY BACKGROUND

Azma Global Tech (M) Sdn Bhd formerly known as Azma Engineering (M) Sdn Bhd was established as a private limited company on 24th April 2002 with authorized capital of RM 1,000,000.00 and paid–up capital of RM1,000,000.00. We are registered company under Companies Commission of Malaysia (Company register number 578198W), Ministry of Finance which include authority to supply complete range of Scientific, Engineering Equipments and I.T. Division with the 100% Bumiputera status.

Our areas of specialization include Information Technology, mechanical, electrical, electronic, automotive and basic science. Apart from above, we also one of the Bumiputera company supplying complete analytical instrumentation, Clinical and Surgical Equipment, educational science and engineering equipments, test measuring, research and development equipment, process technology equipments and workshop machinery software development networking for University, Hospital, Polytechnics, Technical Training Institute, Vocational School, Collage, Research & Development Centre as well as both Heavy and Light Industries.

We are also committed to involve in services and maintenance work which include consultancy for metal based industries, heavy and light machineries, and produce spare part for palm oil Industries.
COMPANY VISION & MISSION

Our Vision

To grow Azma Global Tech (M) Sdn Bhd to annual sales revenue of USD 10 million within the next three years and to become the preferred choice of vendors and service suppliers by providing excellent services.

Our Mission

Azma Global Tech (M) Sdn Bhd will continue to be built by providing its people with a long term career based on a sustainable business growth. We will grow the business by fostering a long term partnership with our customers and business associates. We will continue to provide our customers a total quality solution delivered through hardware, software and value added services. Azma Global Tech (M) Sdn Bhd will continue to be abreast with highly selective fields of technological advances to address the market needs in Information Technology, Engineering, Education, R&D, and manufacturing processes. To sustain long term profitability, Azma Global Tech (M) Sdn Bhd will form mutually rewarding partnerships to facilitate the transfer of technology in order to establish local manufacturing facilities.

Guiding Values

- Committed to quality
- Succeed through teamwork
- Development and growth are goals
- Accountable for performance
- Improvement is a continuous process

Dear Sirs,

RE: REVISION OF FINANCIAL FACILITY

We are pleased to advise that your application for our financial facility have been revised subject to the following terms and conditions:

Type of Facility:  
- a) Domestic Recourse Factoring
- b) Confirming
- c) Bank Guarantee

Facility Limit:  
- a) RM1,500,000-00
- b) Sub limit of RM1,200,000-00
- c) Sub limit of RM50,000-00

Maximum Advance Limit: The Maximum Limit (Client) for all Accepted Customers shall not exceed RM1,500,000-00.

Others: The Domestic Recourse Factoring/(Confirming)/Bank Guarantee) facility is to be reverted back to RM700,000-00(RM560,000-00)(RM50,000-00) by March 31, 2009.

Additional Terms and Conditions for the Domestic Recourse Factoring Facility

CUSTOMER

All outstanding debts of the selected customer as listed below are to be factored. This customer list could be amended from time to time with the consent of Affin Factors Sdn Bhd.

</table>
Didatec Technologie is a company based in France that provides Educational & research equipment catalogue with more than 300 references. For differences field of application are:

- Refrigeration
- Air conditioning
- Heating
- Renewable energy
- Fluid dynamics
- Physic – laboratory
- Process control and instrumentation
- Thermodynamics
- Process engineering
- Maintenance
- Pneumatics
- Hydraulics
- Mechanical Tests

All the products are manufactured by DIDATEC Technologie. Equipments can also be customized to answer all your needs. Specific equipments may be developed with your specifications on demand.
ZMM-Bulgaria is a company based on design, production and delivery of machine tools - wide range of Universal lathes and accessories for CNC lathes, variable speed lathes, oil country lathes, cnc machine, and another equipment. Marketing and trade activity in the area of machine tools and complete projects, trade representation and agency. Design and production of multi-purpose and specialized machine tools and complete deliveries for technological processes. Production of column drilling machines and woodworking machines. Production of band sawing machines. Production of large dimensions iron castings for metal-cutting and metal-working machines. Production of prismatic and rotary parts and units, gear wheels and spare parts for machine tools. Production of welded parts and mechanical machining for them. Assembly, putting in operation, guarantee and after guarantee service.

- UNIVERSAL LATHES

- CNC LATHES
ARSENAL J.S.Co. is a distinguished producer of cemented carbide tools, tips and inserts, universal milling machines, CNC milling machines and drilling machines. The Engineering Department performs structured Quality Management System for design, manufacturing, delivery and service of Milling Machines, Column Drilling Machines, CNC Milling Machines, Machining Centre’s, and Special Purpose Machines in accordance with Customer’s specification and accessories.

- VERTICAL MILLING AND DRILLING MACHINE

Victor Taichung Machinery Works Co., Ltd. started with making conventional lathes in Taiwan and now steadily supplies CNC lathes and machining centers by devoting her management to non-stop R&D and innovations. With more than 65% in-house manufacturing and her own foundry to offer highly reliable Meehanite® castings to further assure machine quality. All products are marketed globally under the brand names VICTOR or FORTUNE (in North America) which highlight her strong position as the leading machine tool manufacturer in Taiwan.

Insisting on “Technology Innovations and Quality Superiority”, Victor Taichung is continuously devoted to developing new generation of machine tools. Victor Taichung has
been focusing to develop high speed, high precision and more comprehensive machine tools. New lathe models Vturn-II series horizontal lathes and vertical lathes were launched since 2000 so as to offer high spindle speed and multi-function machines for competitive markets.

To ensure marketing for own products, Victor Taichung has invested considerably in setting up a global distribution network. To strive for perpetual development and technological innovations, Victor Taichung will keep on manufacturing modern machine tools with greater value added and creating prosperous future for the industry.

• HORIZONTAL CNC Lathes (V-turn series)
Durmazlar Machine produce of the first metal working machines of Turkey, is today producing CNC hydraulic press breaks, full automatic presses, Iron Workers Punch, CNC Synchro Press Brakes, Swing Beam Shears, Synchro Hydraulic Press Brakes, Rotation Punching Machines, CNC hydraulic shears, punch presses and laser machines for five continents and thousands of industrial institutions in 82 countries, automotive, construction, textile, electronics, air transportation sectors, shipyards, industry of defence and industry of defence and industry of heating-cooling in its integrated institutions.

All Durma marked machines, bring an advantage to the world with their superior performance, strong equipments, perfect work ability, higher productivity volume, unrivalled quality and prices. DURMA marked machines brings out a great quality differences to the production with steel construction motorized shears and reach equipments, excellent cutting quality on hydraulic shears and grinded surfaces of Press Brakes.

Laser hardened tools, flexibility of Iron Workers, 1100 punches of Punch machines, high sensitive cutting of Laser, makes the DURMA brand a world leader. One of the other main sensors of choosing DURMA brand is the service standards, all Durma marked machines guaranteed with 10 years’ service, also guaranteed with 25 service person that are a professional and have international perfection in what they do.

- Press Brake Machine
- Laser Cutting Machines
- Punch Presses
- Shears
- Plasma Cutting Machine
- Iron Workers
- Corner Notchers
- Plate Roll Bending
- Profile Bending
- Band Saw
All Didalab equipments, reagents and products we provide are intended exclusively for laboratory use.

- Asservisements

- Automatism (Robot controlled)
  (REF - ESD030000)

- Electronics (DIGITAL ANALOGUE)

- Power electronics and electrical
• Electrotechnique (CONTINUOUS MOTOR CURRENT)
  (REF – ELD 153000)

• Industrial (MICROSYSTEM/MICROCONTROLLER)

• Logic (PROGRAMABLE)

• Measure & accessories
• Regulations (FLOW AND TEMPERATURE)

• Enterprise Networks ("DIDALAN")

• Telecommunications

• Laboratories

“The Bull Stops Here!” DYNOMite decals say it all. Vinyl stickers for autos, bikes, sleds, karts, boats, and trailers. Show them your shop knows the difference between real Hp and just “wishful thinking!” Small die-cut red letters in 6" size (with brushed chrome insert). 1 per pack, on every vehicle you dynamo.
• **Software And Wireless Interfacing**

• **Exhaust Hose System**

• **Drag Race Xmas Tree and Control Package**
The PIERRON general catalogs are the most important in Europe for Educational equipments, containing over 10 000 items most of which are manufactured directly in the PIERRON factories.

- **Electricity and electrostatic kit**

- **Chemistry Kit**

- **Thermometry**
AVIATION ENGINE – ZDZ
ZDZ Modelmotor s.r.o is a leading manufacturer of Crech Republic Aviation Engine. We are also providing aviation technology to the end user including thrust values, body of aeroplane technology, propeller design and others.

We also provide remote control, engines and brushless motor to the remote control fans. Most of the engines that are produces were made 40cc to 420cc. We are expending to a higher level of capacity.

- Model Motor (ENGINE)

- Brushless Motors
The applications for portable emission analyzers continue to grow. Initially designed for flue gas testing on oil and coal fired furnaces to maximize efficiency, today’s emission analyzers used for a variety of reasons. **ECOM Analyzers** can be used for Service & Maintenance, Environmental Compliance, Research & Performance Testing, Vehicle Fleet Diagnostics, and Pollution Control.

- **Emision Analyser**

- **Automotive Emision Analyser**

- **Stationary Equipment Emission Analyzer**

**PARTS OF IT**

**PC HARDWARE AND PRINTER**

We are system Intergrater for Hawlett Package, DELL, Ricoh Aficio and Fuji Xerox.
ACCESS FLOOR SYSTEMS

KTS raised floor systems are designed to meet the functional requirement of intelligent office building, servers rooms, computer rooms, clean rooms and all forms of research and telecommunication centers. Through continuous research and development KTS has successfully developed both anti-static & conductive high quality cementative compound infilled steel panel.

To meet the requirements of this intelligent office and places, KTS raised floors systems should be rigid with a high endurance level, sharp in shape and easy to handle, save in every respects with and added advantage of comfort that you can feel.

KTS raised floors systems that have long been developed to ensure the above conditions, easy installation and relocation. These are designed for integrated efficiency in any environment, ensuring specious dimension flexibility in room layout. Needless KTS raised floors systems are of superior quality with a very competitive price.

KTS cementative compound infilled panels are modular access floor panel using modern equipment manufacturing process & imported material from USA. They provide a flexible & economically viable solution to space planners in any advanced office environment.

Why choosing KTS Access Floor System?

- Easy Installation & Handling
- Excellent Rolling Load Performance
- Fire Safely-Completely non-combustible, Class “A” fire rating and “zero” propagation.
Whenever the goal is to create a comprehensive, future-oriented cable infrastructure that permits multifunctional use, covers growing capacity needs, and also provides the necessary transmission bandwidths for future applications.

Unilan fulfills the growing need for communication and creates opportunities for using the most varied of services, IT and TV applications.

The Unilan cabling system is independent of the service and supports the construction of LANs by all valid norms. The cabling system is independent of the terminal. All commercial data terminals, servers, controllers, and telephones can be connected, and even TV signals can be transmitted.

Class E and F cabling systems require increased attention to quality assurance, installation, and monitoring of numbers after they are laid. It is thus extremely important that all of the cabling components have a high electrical and mechanical quality and are developed in conjunction with each other. For this reason Datwyler develops and manufactures all of the components for a passive system itself.

HOME SECURITY AND AUTOMATION SYSTEM

Escalating crime rates, especially in the number of break-ins, is a cause for concern for every home and business owners. Our customizable security and automation system allos you to monitor the safety of your home or office from any room or even remotely via the
Internet, and even perform tasks like setting the lighting, heat and drawing the curtains with just the press of a button.

- Alarm Systems with options to integrate motion detection, door or window magnetic contact, smoke detectors and motion detectors.

- CCTV Monitoring Systems

- PABX / Intercom Solution

- Home Automation Systems

- Home Entertainment and Audio Visual System Solution

- Lighting Surge Protection System
CCTV SURVEILLANCE SYSTEM

An indispensable tool in security systems, CCTV cameras provide surveillance, verification and also historical data that enable to monitor any conditions and quickly follow on with the necessary action. Going beyond CCTV cameras, our surveillance system offers an integrated solution that involves automatic video signal analysis and transmission, recording and alarm-actuated image display.

ACCESS CONTROL SECURITY SYSTEM

To answer today's requirements for security and safety, our integrated access control systems incorporate innovative technologies that will suit various applications, be it in residential or business environments.

- *Barrier Gate access Automation System*

  Enables effective vehicle traffic and parking access control for residential, commercial and industrial applications.
• **Door Access Control System**

Allows for the control of walk-through into secured areas in a residential or commercial setting.

• **Automatic License Plate Recognition System**

A system to meet the requirements of security, crime detection, traffic management and automatic payments for car parks.

**LIGHTNING POWER PROTECTION SYSTEM**

Lightning and surge voltages have been major causes in damaged equipment and monetary losses every year. We are specializes in providing clean power supply, reliable data signal processing, data communication as well as system integration and consultancy. The Company performs a host of comprehensive engineering services to effectively manage the access energy and to ultimately reduce the losses resulting from lightning and surges. Our lightning power protection system and engineering services encompass:

- Providing comprehensive solutions against lightning surge impulses for equipment
- Providing reliable data signal processes and accurate data transmission
• Providing reliable electrical power supply and energy profile management
• Providing system consultancy of specific design applications and professional training

ADVANCED APPLICATIONS DEVELOPMENT

Azma Global Tech (M) Sdn Bhd does its best to provide you with custom software solutions that will help you to keep one step ahead your competitors by continuously improving your IT-based business solutions. We use the latest software development platforms and tools to achieve this. We also employ the latest project management techniques and software engineering practices. We offer a wide range of custom web and software programming services in a variety of application areas.

BUSINESS INTELLIGENT SYSTEM

Business intelligence (BI) is a broad category of application programs and technologies for gathering, storing, analyzing, and providing access to data to help enterprise users make better business decisions. BI applications include the activities of decision support, query and reporting, online analytical processing (OLAP), statistical analysis, forecasting, and data mining.

ADVANCED NETWORK PRODUCT - CISCO CATALYST SWITCHES

The Cisco® Catalyst® 3XXX Series is a line of fixed-configuration, enterprise-class switches that includes IEEE 802.3af and Cisco pre-standard Power over Ethernet (PoE) capability in Fast Ethernet and Gigabit Ethernet configurations. The Cisco Catalyst 3560 is an ideal access-layer switch for small enterprise LAN access or branch-office environments, combining both 10/100/1000 and PoE configurations for maximum productivity and investment protection while facilitating the deployment of new applications such as IP telephony, wireless access, video surveillance, building management systems, and remote video kiosks. Customers can deploy network wide intelligent services-such as advanced quality of service (QoS), rate limiting, access control lists (ACLs), multicast management, and high-performance IP routing-while maintaining the simplicity of traditional LAN switching.

FIREWALL, IDS, 3DES VPN, FIREWALL LOAD BALANCER
Fortinet's award-winning FortiGate™ series of ASIC-accelerated multi-threat security systems are the new generation of real time network protection systems. They detect and eliminate the most damaging, content-based threats from email and Web traffic such as viruses, worms, intrusions, inappropriate Web content and more in real-time - without degrading network performance.

Most Industry Awards - Fortinet offers the industry's best products and has won the most awards in the network security industry, including Security Product of the Year. The company created and leads the rapidly growing Unified Threat Management (UTM) market space and is the only supplier of real-time ASIC-accelerated network security systems. The combination of our suite of industry-leading FortiGuard Subscription Service offerings and our intelligent systems offer Enterprise, MSSP and SMB users' unparalleled value, best in class performance, and unmatched functionality when compared to any single purpose security appliance or competing Unified Threat Management system.

E-PROCUREMENT SOLUTION

Our eProcurement Technology is best to help companies handle all their day to day procurement needs. It is available both as an Enterprise Solution or an Application Service Provider (ASP). eProcurement transforms procurement by streamlining and automating each stage of the process, from searching for a product or service to ordering, approval, tracking and invoicing. Components such as on-line catalogues, intelligent purchasing agents, intranet workflow, extranet team-rooms and on-line sourcing are making traditional communication channels, such as fax and telephone, redundant.

Significant improvements have been realized from the introduction of eProcurement. Transaction processing costs and times are reduced, freeing up purchasing professionals to perform more value-adding tasks, and the streamlining and automation reduces maverick purchasing, keeping purchase prices low.

TERMS AND CONDITIONS OF APPROVAL AS TM GROUP REGISTERED VENDOR

1. TERM & CONDITION OF APPROVAL

1.1 The approval by TM as TM Group Registered Vendor is given/issued based on the information provided by the Company.

1.2 The Company shall ensure that any changes/amendments to the information provided is informed to TM within ten (10) days from the date of the said changes/amendment.

1.3 The Company shall promptly supply/provide all information within the specified period whenever requires by TM.

1.4 Failure by the Company to comply with para 1.2 and/or 1.3 above, will result in TM exercising its right under para 1.6 and para 2 below.

1.5 The Company is under an obligation to ensure that the work category that has been registered for and specified in this Certificate of Registration shall not be redundant to the work category that has been approved for another company of the same owner/board of director.

1.6 TM reserves the right to revoke/suspend/blacklist the registration of a Company as TM Group Registered Vendor without any prior notice if it is found that:

1.6.1 the information provided by the Company is incorrect/untrue/false; and/or

1.6.2 the Company is in breach of any contracts with TM Group.

2. SUSPENSION/REVOCATION/BLACKLISTING OF REGISTRATION

2.1 The Company registration as TM Group Registered Vendor may be suspended/revoked/blacklisted if found that:

2.1.1 the Company/owner/shareholders/directors is/are involved, charged and found guilty in any illegal/criminal activities;

2.1.2 the Company withdraws the offer before the Tender/Quotation is being considered by TM or rejects any offer from TM;

2.1.3 the Company fails to perform in accordance with any contract signed with the Government of Malaysia or with TM Group of companies;

2.1.4 the Company amends/modify TM’s approval letter or the Certificate of Registration with the intention of fraud or any other like matter;

2.1.5 the Company allows this Certificate of Registration to be misused by any individual or any other company;

2.1.6 the Company acts against the expressed policies and instruction of TM; and/or

2.1.7 the Company makes a price dealing (cartel) with other companies when entering a Tender/Quotation.

2.2 Notwithstanding the above, TM has the right at any time for any reason and at its absolute discretion revoke the Company’s registration as TM Group Registered Vendor without cause by written notice to the Company.

3. RENEWAL OF REGISTRATION

3.1 A Company shall make an application to renew its registration within TWO (2) months before the Expiry Date.

3.2 Any application received after the Expiry Date will be considered as a new application.

4. PARTICIPATION OF TENDER / QUOTATION

4.1 This Certificate of Registration shall be produce when collecting the Quotation document and/or purchasing a Tender document.

4.2 Tender and Quotation notices are advertised in TM homepage at http://www.tm.com.my.

PENDAFTARAN MEMBEKAL PERALATAN/MEMBERI PERKHIDMATAN KEPADA PETRONAS DAN ANAK-ANAK SYARIKAT PETRONAS DI SEKTOR HILIRAN

Adalah diperakukan bahawa syarikat seperti yang dinanyakan di bawah ini adalah berdaftar dengan PETRONAS. Pendaftaran ini tertakluk kepada Syarat-syarikat Am pendaftaran seperti yang tercatat di muka sebelum.

AZMA GLOBAL TECH (M) SDN BHD (578198-W)
E-M 27 PLAZA SURIA, JALAN PJU 10/4C, DAMANSARA DAMAI,
43700 PETALING JAYA
SELANGOR

Tarikh : 22 Ogos 2008

Butir-butir pendaftaran adalah seperti berikut :-

Nombor Pendaftaran : RHQ-578198-W
Tempoh Sah Pendaftaran : 22 Ogos 2008 - 21 Ogos 2010
Bidang pembekalan/perkhidmatan : Seperti di Lampiran.

Syarat-syarat Khas yang dikenakan ke atas pendaftaran ini :

Tertakluk kepada syarat khas pendaftaran seperti di lampiran pendaftaran.
